<http://www.theteachersguide.com/Titanictimeline.html> (moderately detailed)

http://www.titanic-titanic.com/titanic_timeline.shtml (very detailed)

Cut out the cover and three inner sections of the timeline book. The format is such that you can use the timeline for several different approaches. Use the format that you prefer, as detailed or as simple as you choose. The minibook is constructed by layering the books together and stapling them at the top. The cover will completely cover the tabs on the inner pages. Glue the back of the last page to your mat or lapbook base.
